Independent Auditors' Report

Board of Health
Tri-County Health Department
Greenwood Village, Colorado

Report On The Financial Statements

We have audited the accompanying financial statements of the governmental activities and the major fund of Tri-County Health Department (the Department), as of and for the year ended December 31, 2018, and the related notes to the financial statements, which collectively comprise the Department's basic financial statements as listed in the table of contents.

Management's Responsibility For The Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and the major fund of the Department as of December 31, 2018, and the respective changes in financial position thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis Of Matter

As discussed in Notes 8 and 14, the Department adopted the provisions of Governmental Accounting Standards Board Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions*, effective for the year ended December 31, 2018. Our opinion is not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages i through xi, budgetary comparison information on page 45, the schedule of the Department's proportionate share of the net pension liability and the schedule of the Department's contributions to the pension plan on pages 46 through 47 and the schedule of the Department's proportionate share of the net OPEB liability and the schedule of the Department's contributions to the OPEB plan on pages 48 through 49 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, which considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Department's basic financial statements. The accompanying schedule of expenditures of federal awards, as required by the audit requirements of Title 2 *U.S. Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (the Uniform Guidance), is presented for purposes of additional analysis and is not a required part of the basic financial statements.

The schedule of expenditures of federal awards is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditures of federal awards is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required By *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated May 24, 2019 on our consideration of the Department's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Department's internal control over financial reporting and compliance.

**TRI-COUNTY HEALTH DEPARTMENT
MANAGEMENT'S DISCUSSION AND ANALYSIS
December 31, 2018**

This brief report is for the Tri-County Health Department (the “Department”) for the year ended December 31, 2018. Management’s Discussion and Analysis (MD&A) provides an overview of the financial activities of the Department during 2018. The MD&A should be read in conjunction with the Department’s basic financial statements.

Background Information

The Tri-County Health Department was established, in accordance with C.R.S. 25-1-506, to provide local public health services to the 1.5 million residents of Adams, Arapahoe, and Douglas Counties. The Department’s mission is to protect, promote, and improve the health, environment and quality of life of the residents of Adams, Arapahoe and Douglas Counties. The Department provides all core public health services identified in the Colorado State Board of Health, Core Public Health Services Rule, these include: Assessment, Planning and Communication; Vital Records and Statistics; Communicable Disease Prevention, Investigation and Control; Prevention and Population Health Promotion; Emergency Preparedness and Response; Environmental Health; Administration and Governance.

Financial Highlights

- The assets and deferred outflows of resources of the Department were less than its liabilities and deferred inflows of resources at the close of the most recent fiscal year by \$17,156,232 (*net position*).
- The Department’s total net position decreased by \$5,572,996 during fiscal year 2018.
- At the close of the current fiscal year, the Department’s governmental fund reported a fund balance of \$21,163,334, an increase of \$835,580 from the prior year. Approximately 31% of this amount, \$6,529,296, is available for spending at the Department’s discretion.
- At the end of the current fiscal year, unrestricted fund balance (the total of the *committed*, *assigned*, and the *unassigned* components of *fund balance*) was \$20,732,429, or approximately 51% of total general fund expenses.

Overview of the Financial Statements

The discussion and analysis provided here are intended to serve as an introduction to the Tri-County Health Department’s basic financial statements. The Tri-County Health Department’s basic financial statements consist of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) the notes to the financial statements. This report also includes supplementary information intended to furnish additional detail to support the basic financial statements themselves.

**TRI-COUNTY HEALTH DEPARTMENT
MANAGEMENT'S DISCUSSION AND ANALYSIS
December 31, 2018**

Government-Wide Financial Statements

The *government-wide financial statements* are designed to provide readers with a broad overview of the Department's finances in a manner similar to a private-sector business.

The *statement of net position* presents information on all the Department's assets and liabilities. The difference between the two is reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the Department is improving or deteriorating.

The *statement of activities* presents information showing how the government's net position changed during the past year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of the related cash flows. Thus, revenues and expenses are reported for some items that will only result in cash flows in future fiscal periods.

Fund Financial Statements

A fund is a grouping of related accounts that is used to control resources for specific activities. The Department, like other state and local governments, uses fund accounting. The Department has only one fund, the general fund.

Government Funds

Government funds are essentially the same as governmental activities reported in the government-wide financial statements. Unlike the government-wide financial statements, government fund financial statements focus on near-term transactions of expendable resources and the balances of spendable resources available at the end of the fiscal year.

Notes to the Financial Statements

The notes provide additional information that is necessary to acquire a full understanding of the data provided in the government-wide and fund financial statements.

Other Information

In addition to the basic financial statements and accompanying notes, this report also presents *required supplementary information* concerning Tri-County Health Department's progress in funding its obligation to provide pension benefits to its employees.

**TRI-COUNTY HEALTH DEPARTMENT
MANAGEMENT'S DISCUSSION AND ANALYSIS
December 31, 2018**

Financial Efforts of 2018

The Department's financial activities center on providing the citizens of the area a wide variety of public health activities including restaurant inspections, immunizations, nutritional education, disease outbreak identification and management, tobacco prevention and control, and emergency preparedness.

Department revenue consists primarily of funds received from Adams, Arapahoe, and Douglas Counties, intergovernmental (state and federal) and other revenue (collected from licenses, fees and permits).

The table below shows the condensed Statement of Net Position as of December 31, 2018 and 2017:

	<u>2018</u>	<u>2017</u>
Current Assets	\$ 25,485,397	\$ 24,331,208
Capital Assets	<u>2,384,504</u>	<u>3,248,133</u>

Net Position:		
Invested in Capital Assets	2,384,504	3,248,133
Unrestricted	<u>(19,540,736)</u>	<u>(11,969,652)</u>
Total Net Position	<u>(17,156,232)</u>	<u>(8,721,519)</u>
Total Liabilities, Deferred Inflows of Resources and Net Position	<u>\$ 37,558,129</u>	<u>\$ 38,896,555</u>

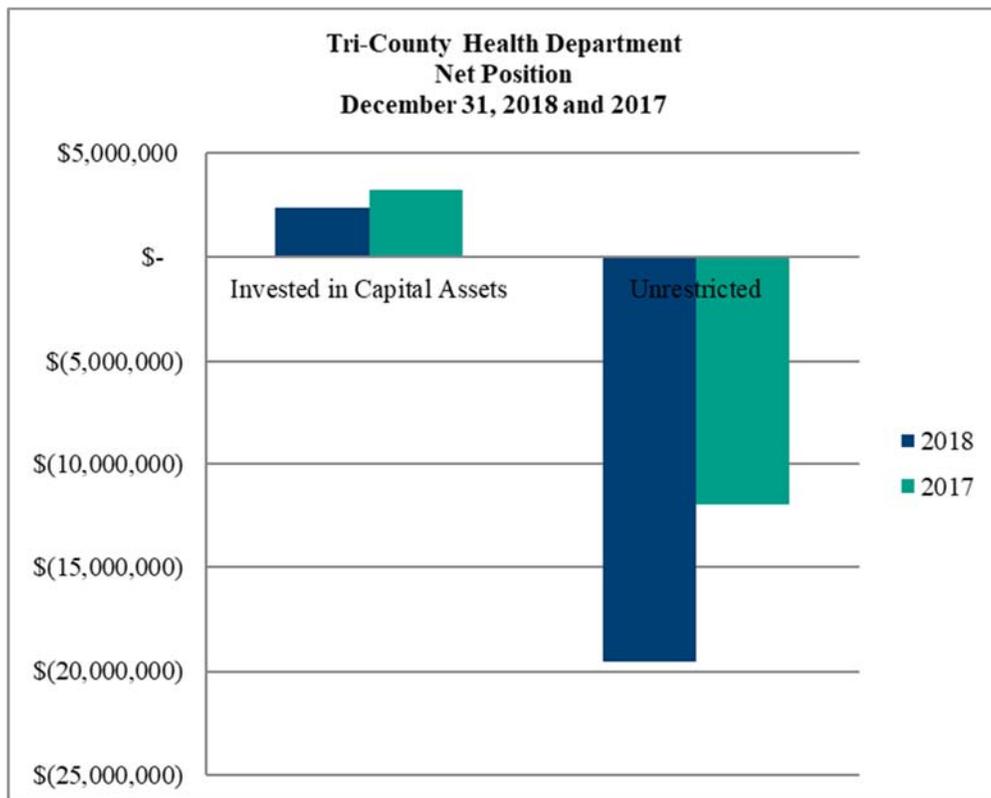

Tri-County Health Department implemented GASB 68 in 2015. With the new reporting change, the Department is allocated its proportionate share of the Local Government Public Employees' Retirement Association's net pension asset, deferred outflows of resources, deferred inflows of resources and pension expense. Decisions regarding the allocations are made by the administration of the pension plan.

**TRI-COUNTY HEALTH DEPARTMENT
MANAGEMENT'S DISCUSSION AND ANALYSIS
December 31, 2018**

GASB 75 was implemented in 2018. In connection with its implementation of GASB 75, the Department restated its net position as of January 1, 2018. The restatement resulted in a decrease to net position totaling \$2,861,717 as of January 1, 2018.

The chart below shows the Net Position as of December 31, 2018 and 2017:

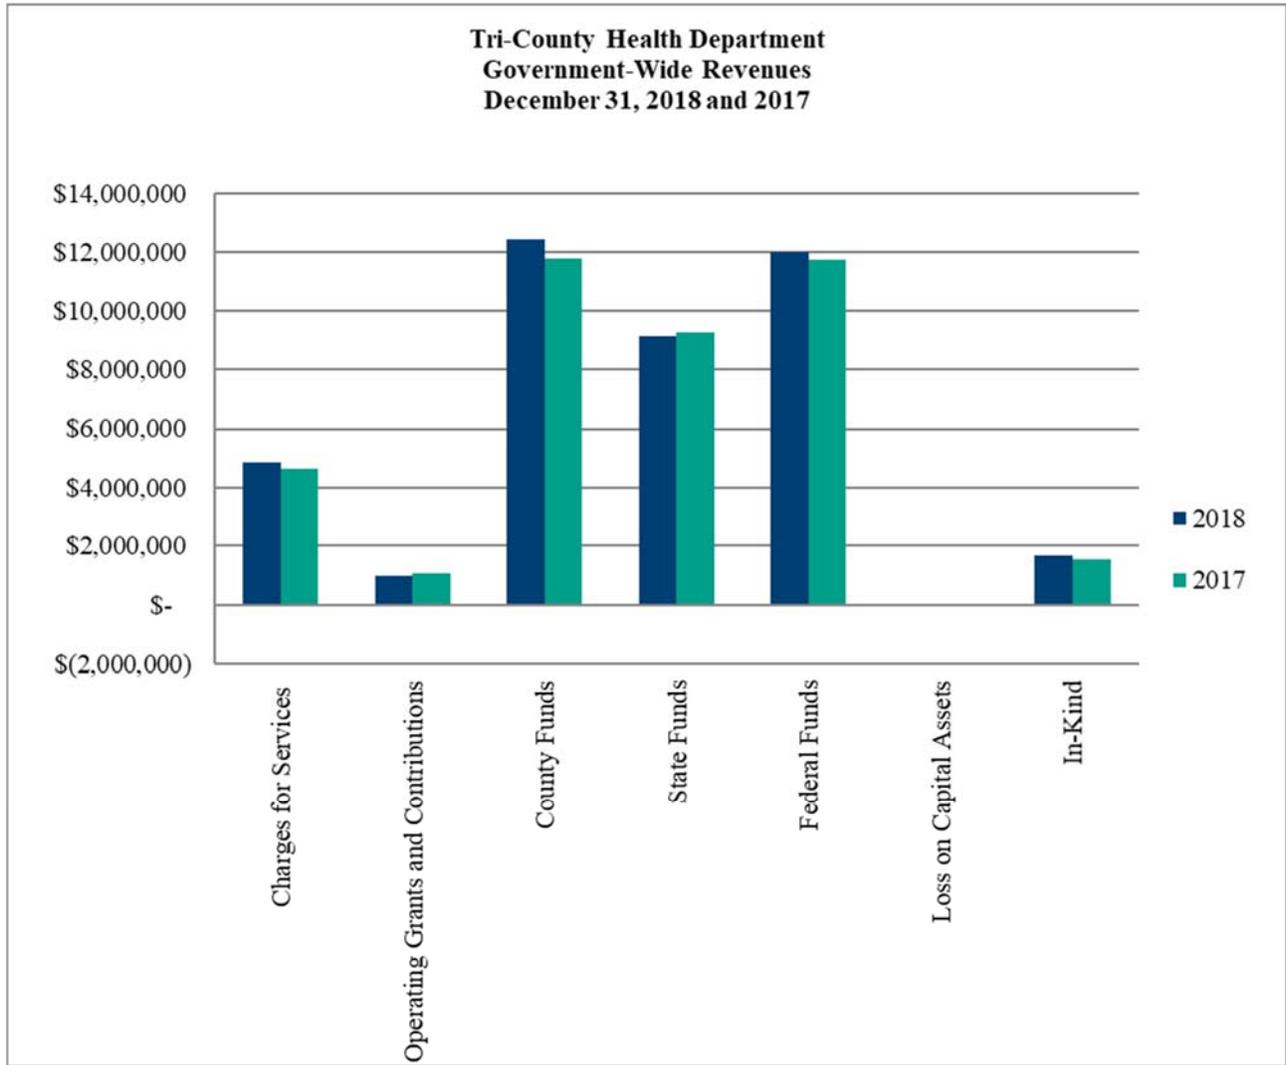

**TRI-COUNTY HEALTH DEPARTMENT
MANAGEMENT'S DISCUSSION AND ANALYSIS
December 31, 2018**

The table below shows the condensed Statement of Activities as of December 31, 2018 and 2017:

	<u>2018</u>	<u>2017</u>
Program Revenues:		
Charges for Services	\$ 4,867,857	\$ 4,661,506

**TRI-COUNTY HEALTH DEPARTMENT
MANAGEMENT'S DISCUSSION AND ANALYSIS
December 31, 2018**

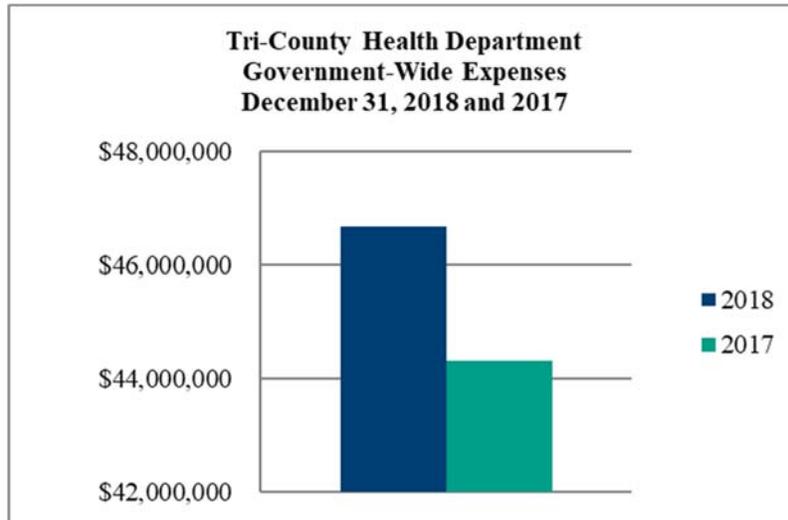

Revenues from federal grants increased from the previous year while state grant revenue decreased slightly.

**TRI-COUNTY HEALTH DEPARTMENT
MANAGEMENT'S DISCUSSION AND ANALYSIS
December 31, 2018**

Total expenses for the Department increased from 2017 to 2018 by approximately \$2.4 million, primarily in personnel costs.

The table below shows the condensed budget comparison for 2018:

	<u>Final Budget</u>	<u>Actual</u>
Revenues		
Contributions from Counties	\$ 12,538,348	\$ 12,441,062
State and Federal Funds	21,824,821	21,161,622
Fees	4,862,797	4,867,857
Grants and Contracts	1,293,772	965,629
Other	1,511,162	1,660,215
Total Revenues	<u>42,030,900</u>	<u>41,096,385</u>
Expenditures		
Personnel	29,701,375	28,702,746
Operating	10,233,667	9,491,549
Capital Outlay	584,696	406,295
In-Kind	1,511,162	1,660,215
Total Expenditures	<u>42,030,900</u>	<u>40,260,805</u>
Change in Fund Balance	<u>\$ -</u>	<u>\$ 835,580</u>

**TRI-COUNTY HEALTH DEPARTMENT
MANAGEMENT'S DISCUSSION AND ANALYSIS
December 31, 2018**

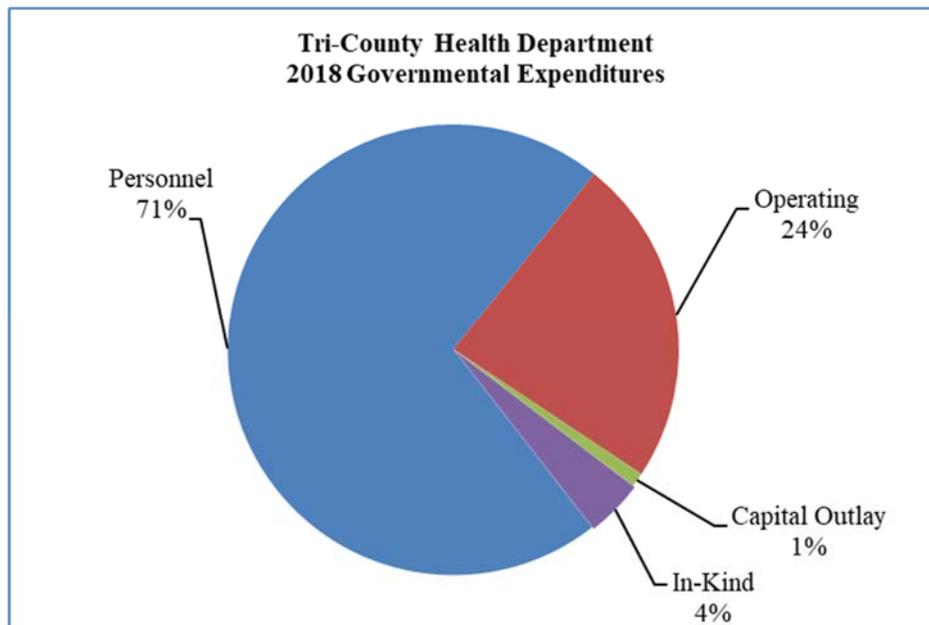

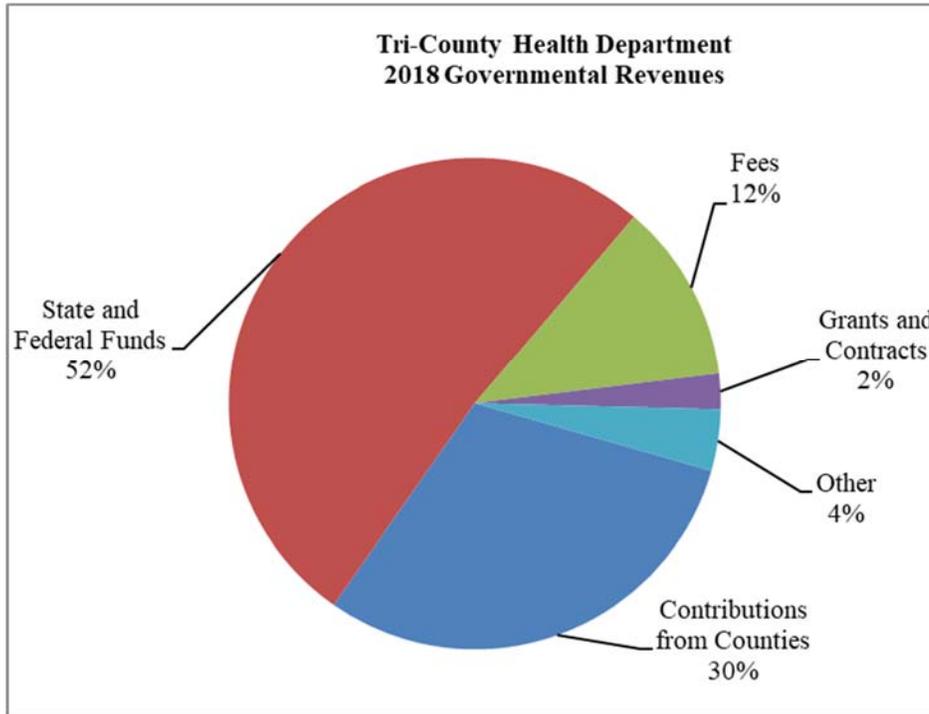

The Department ended the year of 2018 with revenues in excess of expenditures in the amount of \$835,580.

Total revenue was lower than budgeted by \$934,515 primarily in grants, state and federal revenue.

Actual expenditures of \$40,260,805 were under budget by \$1,770,095 for 2018. Factors include the following:

1. Personnel costs were under budget by approximately \$998,000.
2. Operating expenses were under budget by \$742,000.
3. Capital outlays were less than budgeted by approximately \$178,000, as planned software purchases were not made in 2018.

**TRI-COUNTY HEALTH DEPARTMENT
MANAGEMENT'S DISCUSSION AND ANALYSIS
December 31, 2018**

**TRI-COUNTY HEALTH DEPARTMENT
MANAGEMENT'S DISCUSSION AND ANALYSIS
December 31, 2018**

Capital Assets

The Department's investment in capital assets as of December 31, 2018 amounts to \$2,384,504 (net of accumulated depreciation). The capital assets include computer equipment, computer software, furniture, improvements to buildings, and other equipment with a cost of \$5,000 or more.

The following table shows the capital assets for 2018 and 2017:

	<u>2018</u>	<u>2017</u>
Depreciable Capital Assets		
Office furniture and equipment	1,441,526	1,435,480
Computer equipment	1,135,200	1,217,627
Computer software	164,718	164,718
Leasehold improvements	4,697,501	4,629,408
Total Depreciable Capital Assets	<u>7,438,945</u>	<u>7,447,233</u>
Accumulated depreciation	<u>(5,054,441)</u>	<u>(4,199,100)</u>
Total Capital Assets Being Depreciated, Net	<u>2,384,504</u>	<u>3,248,133</u>
Net Capital Assets	<u>\$ 2,384,504</u>	<u>\$ 3,248,133</u>

Capital additions for 2018 totaled \$91,369 and consisted of computer equipment, office furniture and leasehold improvements.

Summary

Future revenues and expenditures will depend on the economic climate of Adams, Arapahoe, and Douglas Counties, the State of Colorado and the United States. The potential exists for the Department to realize budget and program cuts at the state and federal level or other budgetary/funding mandates outside of the Department's control. These cuts may affect the level of services that the Department will provide in the future.

Programs will be evaluated to assure that adequate funding is available to sustain the level of services required and to meet the goal of the Department to be fiscally self-sufficient.

OPEB	(45,839)

Change In Net Position - Statement Of Activities \$ (5,572,996)

TRI-COUNTY HEALTH DEPARTMENT
NOTES TO BASIC FINANCIAL STATEMENTS
December 31, 2018

1. Summary Of Significant Accounting Policies

The financial statements of the Tri-County Health Department (the Department) have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted body for establishing standards for governmental accounting and financial reporting.

The Department's annual financial reports include the accounts and funds of all Department operations presented in accordance with GASB Statement No. 34, *Basic Financial Statements - and Management's Discussion and Analysis - for State and Local Governments*.

The more significant of the Department's accounting policies are as follows:

Reporting Entity

The Department's mission is to protect, promote and improve the health, environment and quality of life of the residents of Adams, Arapahoe and Douglas Counties. The Department provides all core public health services identified in the Colorado State Board of Health, Core Public Health Services Rule. These include: Assessment, Planning and Communication; Vital Records and Statistics; Communicable Disease Prevention, Investigation and Control; Prevention and Population Health Promotion; Emergency Preparedness and Response; Environmental Health; Administration and Governance.

The Department is not financially accountable for any other organization, nor is the Department a component unit of any other primary governmental entity.

For financial reporting purposes, the Department includes all funds and account groups for which it is financially accountable. The Department does not exercise any power over any other entity.

Government-Wide And Fund Financial Statements

Government-Wide Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the government.

TRI-COUNTY HEALTH DEPARTMENT

Notes To Basic Financial Statements (*Continued*)

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. The Department does not allocate indirect expenses to functions in the statement of activities. Program revenues include (1) charges to customers or applicants who purchase, use or directly benefit from goods, services or privileges provided by a given function or segment and (2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. For identifying the function to which program revenue pertains, the determining factor for charges for services is which function generates the revenue. For grants and contributions, the determining factor is to which function the revenues are restricted. Taxes and other items not properly included among program revenues are reported instead as general revenues.

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned, and expenses are recorded when liabilities are incurred, regardless of the timing of related cash flows.

Fund Financial Statements

The accounts of the Department are organized on the basis of funds. Each fund is considered an independent fiscal and accounting entity with a self-balancing set of accounts recording cash and/or other assets together with all related liabilities, obligations, reserves and equities, which are segregated for the purpose of carrying on specific activities or attaining certain objectives in accordance with special regulations, restrictions or limitations.

The Department used the following fund during 2018:

Governmental Fund

The General Fund accounts for all financial resources except those required to be accounted for in another fund.

Basis Of Accounting

Basis of accounting refers to when revenues and expenditures or expenses are recognized in the accounts and reported in the financial statements. Basis of accounting relates to the timing of the measurements made, regardless of the measurement focus applied.

TRI-COUNTY HEALTH DEPARTMENT

Notes To Basic Financial Statements (*Continued*)

All governmental funds are accounted for using the modified-accrual basis of accounting. Their revenues are recognized when they become measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the Department considers revenues to be available if they are collected within 60 days of the end of the current fiscal period.

Expenditures are generally recognized under the modified-accrual basis of accounting when the related fund liability is incurred. Exceptions to this general rule include principal and interest on general long-term debt and compensated absences, which are recognized when due.

Cash And Investments

The Department's cash and investments are comprised of cash on hand, cash in banks and highly liquid investments with a maturity of three months or less when purchased.

The Department may invest in bonds or other interest-bearing obligations issued by or unconditionally guaranteed by the United States or bonds that are the direct obligations of the State of Colorado or any county, city or school district in the state. The Department may also invest in repurchase agreements of any marketable security otherwise authorized by law, where the market value of such security is at all times at least equal to the moneys involved, and there is assignment of such security pursuant to current depository regulations.

Investments for the Department are reported at fair value, except for certain investments held at amortized cost, which approximate fair value.

Accounts Receivable

Accounts receivable are determined by management to be fully collectible at December 31, 2018; therefore, an allowance for doubtful accounts is not recorded in the financial statements.

Inventory

Inventory is valued at the lower of cost or market, using the average-cost method. The cost of General Fund inventory is recorded as an expenditure when consumed, rather than when purchased.

TRI-COUNTY HEALTH DEPARTMENT

Notes To Basic Financial Statements (*Continued*)

Capital Assets

Capital assets are recorded at cost except for assets contributed, which are stated at acquisition value on the date of contribution. The Department uses a capitalization threshold of \$5,000 for financial statement purposes and depreciates capital assets on the straight-line basis over either a 5- or a 10-year estimated useful life.

The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend assets' lives are not included in capital assets.

Compensated Absences

It is the Department's policy to permit employees to accumulate earned but unused vacation benefits (paid time off) up to certain maximum limits. Therefore, a liability for accrued vacation is recorded for full accrual purposes in the government-wide financial statements. However, for governmental fund financial statement purposes, vacation benefits are expected to be liquidated with available financial resources and are reported as an expenditure and fund liability of the General Fund when amounts are due.

In-Kind Donations

In-kind donations consist of donated goods and personal services. Donated goods are valued at the donor's assigned value or estimated fair value. Personal services are valued based upon hourly wage rates paid for similar services or at the donor's assigned value. These donations are included as revenue and as program costs to properly reflect the total costs of the Department's operations.

Fund Balance

In the fund financial statements, the governmental fund reports the following classification of fund balance:

Nonspendable - includes items not expected to be converted to cash in the near term (e.g., inventories and prepaids) or funds that legally or contractually must be maintained intact.

Restricted - includes amounts restricted by external sources (creditors, laws of other governments, etc.) or by constitutional provision or enabling legislation.

TRI-COUNTY HEALTH DEPARTMENT

Notes To Basic Financial Statements (*Continued*)

Committed - includes amounts that can only be used for the specific purposes determined by a formal action, a Board resolution, of the Department's highest level of decision-making authority, the Tri-County Board of Health. The same formal action must be taken to remove or change the limitations placed on the funds.

Assigned - consists of funds intended to be used for specific purposes but do not meet the criteria to be classified as restricted or committed. The Tri-County Board of Health has delegated the authority to the Executive Director, or his designee, to assign funds and amounts to be used for specific purposes.

Unassigned - is the residual classification of the General Fund and includes all spendable amounts not contained in other classifications. This category also provides the resources necessary to meet any unexpected expenditures and revenue shortfalls.

The Tri-County Board of Health (the Board) has established an emergency operating reserve equivalent to three months of operating expenses. The purpose of this reserve is to provide the Department with sufficient working capital and a margin of safety to address significant and sudden revenue shortfalls or local and regional emergencies or other critical circumstances, as determined by the Board. The Board has established that the amount shall be used only after all other efforts have been exhausted to fund unanticipated needs and/or emergencies, such as would occur in the event of a declared regional health emergency, catastrophic loss of property or sudden loss of 10% or more of the current fiscal year's General Fund revenue. If the Emergency Operating Fund balance falls below 10% of the total current fiscal year adopted annual appropriations or half of the prior fiscal year ending fund balance, then a budgetary plan shall be implemented to return the reserve to a minimum 10% level in no more than a three-year period. The amount for this reserve will be validated and determined on an annual basis after the annual audit has been completed. As of December 31, 2018, the amount of the estimated three-month emergency operating reserve was \$10,390,436, which is included in committed fund balance.

In circumstances where an expenditure is to be made for a purpose for which amounts are available in multiple fund balance classifications, the order in which the resources will be expended is as follows: restricted fund balance, followed by committed fund balance, assigned fund balance and, lastly, unassigned fund balance.

TRI-COUNTY HEALTH DEPARTMENT

Notes To Basic Financial Statements *(Continued)*

Net position represents the difference between assets and deferred inflows of resources, and deferred outflows of resources and liabilities and is classified as net investment in capital assets, restricted or unrestricted. Net investment in capital assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowing used for the acquisition or construction of improvements on those assets, excluding any unspent bond proceeds. Net position is reported as restricted when there are limitations imposed on its use, either through the enabling legislation adopted by the Department or through external restrictions imposed by creditors, grantors, laws or regulations of other governments. All other net position that does not meet these definitions is classified as unrestricted.

Use Of Estimates

In preparing financial statements in conformity with GAAP, management is required to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amount of revenues and expenditures during the reporting period. Actual results could differ from those estimates.

Budgets And Budgetary Accounting

In accordance with state budget law, the Department's Board holds public hearings in the fall of each year to approve the budget and appropriate the funds for each ensuing year. The appropriation is at the total fund expenditure level and lapses at year end. The Board can modify the budget by line item within the total appropriation without notification. The appropriation can only be modified upon completion of notification and publication requirements.

Pensions

The Department participates in the Local Government Division Trust Fund (LGDTF), a cost-sharing multiple-employer defined benefit pension fund administered by the Public Employees' Retirement Association of Colorado (PERA). The net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, pension expense, information about the fiduciary net position and additions to/deductions from the fiduciary net position of LGDTF have been determined using the economic resources measurement focus and the accrual basis of accounting. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

TRI-COUNTY HEALTH DEPARTMENT

Notes To Basic Financial Statements (*Continued*)

Other Post Employment Benefit (OPEB) Plan

The Department participates in the Health Care Trust Fund (the HCTF), a cost-sharing multiple-employer defined benefit OPEB fund administered by PERA. The net OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB, OPEB expense, information about the fiduciary net position and additions to/deductions from the fiduciary net position of the HCTF have been determined using the economic resources measurement focus and the accrual basis of accounting. For this purpose, benefits paid on behalf of health care participants are recognized when due and/or payable in accordance with the benefit terms. Investments are reported at fair value.

Deferred Outflows Of Resources

In addition to assets, the statement of net position will sometimes include a separate section for deferred outflows of resources. This separate financial statement element represents a consumption of net position that applies to a future period or periods and so will not be recognized as an outflow of resources until then. The Department has recognized deferred outflows of resources in the government-wide financial statements in accordance with presentation requirements for GASB Statement No. 68, *Accounting and Financial Reporting for Pensions - An Amendment of GASB Statement No. 27* (GASB 68) and GASB Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions* (GASB 75).

Deferred Inflows Of Resources

In addition to liabilities, the statement of net position will sometimes include a separate section for deferred inflows of resources. This separate financial statement element represents an acquisition of net position that applies to a future period or periods and so will not be recognized as an inflow of resources until then. The Department has recognized deferred inflows of resources in the government-wide financial statements in accordance with presentation requirements for GASB 68 and GASB 75.

TRI-COUNTY HEALTH DEPARTMENT

Notes To Basic Financial Statements (*Continued*)

2. Noncash Federal Vouchers And Supplies

The Department receives noncash vouchers and supplies, which are required to be recorded in the schedule of expenditures of federal awards; however, these amounts are not recorded in the financial statements. The noncash amounts are as follows:

Noncash federal vouchers and supplies received	\$ 14,584,689
Noncash federal vouchers and supplies expenditures	<u>14,584,689</u>
Net	<u>\$ —</u>

3. Cash And Investments

Deposits

The Colorado Public Deposit Protection Act (PDPA) requires that all units of local government deposit cash in eligible public depositories. Eligibility is determined by state regulators. Amounts on deposit in excess of federal insurance levels must be collateralized. The eligible collateral is specified by PDPA. PDPA allows the institution to create a single collateral pool for all public funds.

The pool is to be maintained by another institution or held in trust for all the uninsured public deposits as a group. The market value of the collateral must equal at least 102% of the uninsured deposits. The State Regulatory Commissions for banks and savings and loan associations are required by statute to monitor the naming of eligible depositories and reporting of the uninsured deposits and assets maintained in the collateral pools. At December 31, 2018, the Department had bank deposits of \$3,368,807 collateralized with securities held by the financial institution's agent, but not in the Department's name.

Custodial Credit Risk - This is the risk that, in the event of a bank failure, the Department's deposits may not be returned to it. As of December 31, 2018, the Department's deposits were not exposed to credit risk, as all deposits were insured by the Federal Deposit Insurance Corporation or collateralized in accordance with PDPA.

TRI-COUNTY HEALTH DEPARTMENT

Notes To Basic Financial Statements (Continued)

Investments

The Department has an investment policy which specifies investment instruments including rating, maturity and concentration risk criteria in which the Department may invest. These include:

- United States Treasury obligations
- Federal instrumentality securities
- Time certificates of deposit
- Commercial paper
- Money market mutual funds
- Local government investment pools
- Corporate or bank issue debt

At December 31, 2018, the Department's investments consisted of the following:

<u>Investments</u>	<u>Fair Value</u>	<u>% Of Total</u>
U.S. treasury notes	\$ 2,071,953	14%
U.S. agency securities	3,064,088	20%
Certificates of deposit	5,137,411	33%
Corporate bonds	1,002,159	7%
Money market funds	25,862	0%
Local government investment pool	3,970,846	26%
Total Investments	\$ 15,272,319	100%

At December 31, 2018, the Department had the following investments and maturities:

<u>Investment Type</u>	<u>S&P Rating</u>	<u>Fair Value</u>	<u>Investment Maturities (In Years)</u>		<u>Total</u>
			<u>Less Than 1</u>	<u>1 - 5</u>	
U.S. treasury notes	N/A	\$ 2,071,953	\$ 679,854	\$ 1,392,099	\$ 2,071,953
U.S. agency securities	AA+	3,064,088	769,647	2,294,441	3,064,088
Certificates of deposit	N/A	5,137,411	4,158,146	979,265	5,137,411
Corporate bonds	AA+	1,002,159	468,497	533,662	1,002,159
Money market funds	Unrated	25,862	25,862	—	25,862
Local government investment pool	AAAm	3,970,846	3,970,846	—	3,970,846
Total		\$ 15,272,319	\$ 10,072,852	\$ 5,199,467	\$ 15,272,319

At December 31, 2018, the Department had an investment held by the Colorado Surplus Asset Fund (CSAFE), a local government investment pool, totaling \$3,970,846, which is valued at amortized cost. Issued financial statements for CSAFE may be obtained at www.csafe.org.

TRI-COUNTY HEALTH DEPARTMENT

Notes To Basic Financial Statements (*Continued*)

Authorized securities include U.S. treasury issues, U.S. agency issues, commercial paper, repurchase agreements and bank deposits (collateralized through PDPA) held at fair value, and money market funds and certain investment pools held at amortized cost, which approximates fair value. CSAFE, which reports at amortized cost, is a local government investment pool, with a share value equal to \$1.00 and a maximum weighted average maturity of 60 days. There are no significant redemption periods for investments held with CSAFE. Designated custodial banks provide safekeeping and depository services to CSAFE in connection with direct investment and withdrawal functions. Substantially all securities owned by CSAFE are held by the Federal Reserve Bank in the account maintained for the custodial bank. The State Securities Commission administers and enforces all state statutes for governing CSAFE.

Interest Rate Risk - Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment or a deposit. State law limits investment maturities to five years or less as a means of managing exposure to fair value loss resulting from increasing interest rates. As such, due to the short-term nature of the Department's investments, interest rate risk is minimized.

Credit Risk - Credit risk involves the risk that an issuer or other counterparty to an investment will not fulfill its obligations. State law limits investments to U.S. Treasury issues, other federally backed notes and credits and other agency offerings. Other investment instruments, including bank obligations, general obligation bonds and commercial paper are limited to at least one of the highest rating categories of at least one nationally recognized rating agency. State statutes limit investments in corporate bonds and foreign issues to a minimum credit rating of "AA- or Aa3" by two or more nationally recognized statistical rating organizations. All of the Department's investments were at or above this minimum requirement. State law further limits investments in money market funds to those institutions with over \$1 billion in assets or the highest credit rating from one or more of a nationally recognized rating agency.

Concentration Of Credit Risk - The Department's investment policy does not limit the amount the Department may invest in one issuer. The Department has investments in U.S. agency securities greater than 5% of its total portfolio as follows: Federal Home Loan Mortgage Corporation (7.54%) and Federal National Mortgage Association (11.42%).

TRI-COUNTY HEALTH DEPARTMENT

Notes To Basic Financial Statements (Continued)

Fair Value - The Department categorizes its fair value measurements within the fair value hierarchy established by GAAP. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets. Level 2 inputs are significant other observable inputs and are valued using matrix pricing model. Level 3 inputs are significant unobservable inputs. The Department has the following fair value measurements as of December 31, 2018:

Investments By Fair Value Level	December 31, 2018	Fair Value Measurements Using		
		Level 1	Level 2	Level 3
U.S. Treasury notes	\$ 2,071,953	\$ —	\$ 2,071,953	\$ —
U.S. agency securities	3,064,088	—	3,064,088	—
Certificates of deposit	5,137,411	—	5,137,411	—
Corporate bonds	1,002,159	—	1,002,159	—
Money market funds	9,864	9,864	—	—
Total Investments By Fair Value Level	11,285,475	\$ 9,864	\$ 11,275,611	\$ —
Investments Held At Amortized Cost				
Local government investment pool	3,970,846			
Money market funds	15,998			
Total Investments	\$ 15,272,319			

4. Capital Assets

Capital asset activity for the year ended December 31, 2018 was as follows:

	Balance - January 1, 2018		Additions	Retirements	Balance - December 31, 2018	
Depreciable Capital Assets						
Office furniture and equipment	\$ 1,435,480	\$ 6,046	\$ —	\$ —	\$ 1,441,526	
Computer equipment	1,217,627	17,230	(99,657)		1,135,200	
Computer software	164,718	—	—		164,718	
Leasehold improvements	4,629,408	68,093	—		4,697,501	
Total Depreciable Capital Assets	7,447,233	91,369	(99,657)		7,438,945	
Accumulated depreciation	(4,199,100)	(954,998)	99,657		(5,054,441)	
Total Capital Assets Being Depreciated, Net	3,248,133	(863,629)			2,384,504	
Governmental Activities Capital Assets, Net	\$ 3,248,133	\$ (863,629)	\$ —		\$ 2,384,504	

Depreciation expense for the year ended December 31, 2018 was \$954,998, all of which related to the Public Health and Welfare function.

TRI-COUNTY HEALTH DEPARTMENT

Notes To Basic Financial Statements (Continued)

5. Operating Leases

The Department leases various operating facilities under noncancelable leases with third parties which expire through 2026. Lease expense for the year ended December 31, 2018 totaled \$2,185,722.

Future minimum rental commitments under operating leases as of December 31, 2018 were as follows:

Year Ending December 31,	Amount
2019	\$ 2,082,208
2020	2,011,401
2021	1,938,701
2022	1,946,356
2023	1,978,274
Thereafter	3,807,049
Total	\$ 13,763,989

6. Changes In Long-Term Obligations

	Balance - January 1, 2018	Additions	Reductions	Balance - December 31, 2018	Amounts Due Within One Year
Compensated absences	\$ 1,562,653	\$ 113,890	\$ (195,757)	\$ 1,480,786	\$ 148,079

7. Defined Benefit Pension Plan (PERA)

Plan Description

Eligible employees of the Department are provided with pensions through LGDTF, a cost-sharing multiple-employer defined benefit pension plan administered by PERA. Plan benefits are specified in Title 24, Article 51, of the Colorado Revised Statutes (C.R.S.), administrative rules set forth at 8 C.C.R. 1502-1 and applicable provisions of the federal Internal Revenue Code. Colorado state law provisions may be amended from time to time by the Colorado General Assembly. PERA issues a publicly available comprehensive annual financial report that can be obtained at www.copera.org/investments/pera-financial-reports.

TRI-COUNTY HEALTH DEPARTMENT

Notes To Basic Financial Statements (*Continued*)

Benefits Provided

PERA provides retirement, disability and survivor benefits. Retirement benefits are determined by the amount of service credit earned and/or purchased, highest average salary, the benefit structure(s) under which the member retires, the benefit option selected at retirement and age at retirement. Retirement eligibility is specified in tables set forth at C.R.S. § 24-51-602, 604, 1713 and 1714.

The lifetime retirement benefit for all eligible retiring employees under the PERA benefit structure is the greater of the:

- Highest average salary multiplied by 2.5% and then multiplied by years of service credit
- The value of the retiring employee's member contribution account plus a 100% match on eligible amounts as of the retirement date. This amount is then annuitized into a monthly benefit based on life expectancy and other actuarial factors.

The lifetime retirement benefit for all eligible retiring employees under the Denver Public Schools (DPS) benefit structure is the greater of the:

- Highest average salary multiplied by 2.5% and then multiplied by years of service credit
- An amount of \$15 times the first 10 years of service credit plus \$20 times service credit over 10 years plus a monthly amount equal to the annuitized member contribution account balance based on life expectancy and other actuarial factors

In all cases, the service retirement benefit is limited to 100% of the highest average salary and also cannot exceed the maximum benefit allowed by federal Internal Revenue Code.

Members may elect to withdraw their member contribution accounts upon termination of employment with all PERA employers, waiving rights to any lifetime retirement benefits earned. If eligible, the member may receive a match of either 50% or 100% on eligible amounts, depending on when contributions were remitted to PERA, the date employment was terminated, whether five years of service credit has been obtained and the benefit structure under which contributions were made.

TRI-COUNTY HEALTH DEPARTMENT

Notes To Basic Financial Statements (*Continued*)

Benefit recipients who elect to receive a lifetime retirement benefit are generally eligible to receive post-retirement cost-of-living adjustments, referred to as annual increases in C.R.S. Benefit recipients under the PERA benefit structure who began eligible employment before January 1, 2007 and all benefit recipients of the DPS benefit structure receive an annual increase of 2%, unless PERA has a negative investment year, in which case the annual increase for the next three years is the lesser of 2% or the average of the Consumer Price Index for Urban Wage Earners and Clerical Workers (CPI-W) for the prior calendar year. Benefit recipients under the PERA benefit structure who began eligible employment after January 1, 2007 receive an annual increase of the lesser of 2% or the average CPI-W for the prior calendar year, not to exceed 10% of PERA's Annual Increase Reserve for LGDTF.

Disability benefits are available for eligible employees once they reach five years of earned service credit and when it is determined that they meet the definition of disability. The disability benefit amount is based on the retirement benefit formula shown above, considering a minimum 20 years of service credit, if they are deemed disabled.

Survivor benefits are determined by several factors, which include the amount of earned service credit, highest average salary of the deceased, the benefit structure(s) under which service credit was obtained and the qualified survivor(s) who will receive the benefits.

TRI-COUNTY HEALTH DEPARTMENT

Notes To Basic Financial Statements (*Continued*)

Contributions

Eligible employees and the Department are required to contribute to LGDTF at a rate set by Colorado statute. The contribution requirements are established under C.R.S. § 24-51-401, *et seq.* Eligible employees are required to contribute 8% of their PERA-includable salary. The employer contribution requirements are summarized in the table below:

	For The Year Ended December 31, 2018
Employer contribution rate ¹	10.00%
Amount of employer contribution apportioned to HCTF as specified in C.R.S. § 24-51-208(1)(f) ¹	(1.02%)
Amount apportioned to LGDTF ¹	8.98%
Amortization equalization disbursement (AED) as specified in C.R.S. § 24-51-411 ¹	2.20%
Supplemental amortization equalization disbursement (SAED) as specified in C.R.S. § 24-51-411 ¹	1.50%
Total employer contribution rate to LGDTF ¹	<u>12.68%</u>

1. Rates are expressed as a percentage of salary as defined in C.R.S. § 24-51-101(42).

Employer contributions are recognized by LGDTF in the period in which the compensation becomes payable to the member, and the Department is statutorily committed to pay the contributions to LGDTF. Employer contributions recognized by LGDTF from the Department were \$2,833,590 for the year ended December 31, 2018.

Pension Liabilities, Pension Expense, Deferred Outflows Of Resources And Deferred Inflows Of Resources Related To Pensions

At December 31, 2018, the Department reported a liability of \$35,429,512 for its proportionate share of the net pension liability. The net pension liability was measured as of December 31, 2017, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of December 31, 2016. Standard update procedures were used to roll forward the total pension liability to December 31, 2017. The Department's proportion of the net pension liability was based on Department contributions to LGDTF for the calendar year 2017 relative to the total contributions of participating employers to LGDTF.

TRI-COUNTY HEALTH DEPARTMENT

Notes To Basic Financial Statements (Continued)

At December 31, 2017, the Department's portion was 3.1820%, which was an increase of 0.1010% from its proportion measured as of December 31, 2016.

For the year ended December 31, 2018, the Department recognized pension expense of \$8,416,305. At December 31, 2018, the Department reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows Of Resources	Deferred Inflows Of Resources
Differences between expected and actual experience	\$ 2,216,431	\$ —
Changes of assumptions	374,292	—
Difference between projected and actual earnings on pension plan investments	3,327,643	10,214,269
Changes in proportion and differences between contributions and proportionate share of contributions	576,713	34,213
Contributions subsequent to the measurement date	2,833,590	—
Total	\$ 9,328,669	\$ 10,248,482

The amount of \$2,833,590 reported as deferred outflows of resources related to pensions resulting from contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended December 31, 2019. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

For The Year Ended December 31,	
2019	\$ (2,080,052)
2020	775,336
2021	2,504,551
2022	2,553,568
Total	\$ 3,753,403

TRI-COUNTY HEALTH DEPARTMENT

Notes To Basic Financial Statements (*Continued*)

Actuarial Assumptions

The total pension liability in the December 31, 2016 actuarial valuation was determined using the following actuarial cost method, actuarial assumptions and other inputs:

Actuarial cost method	Entry age
Price inflation	2.40%
Real wage growth	1.10%
Wage inflation	3.50%
Salary increases, including wage inflation	3.50% - 10.45%
Long-term investment rate of return, net of pension plan investment expenses, including price inflation	7.25%
Discount rate	7.25%
Future post-retirement benefit increases:	
PERA benefit structure hired prior to January 1, 2007 and DPS benefit structure (automatic)	2.00%
PERA benefit structure hired after December 31, 2006 (ad hoc, substantively automatic)	Financed by the Annual Increase Reserve (AIR)

Healthy mortality assumptions for active members reflect the RP-2014 White Collar Employee Mortality Table, a table specifically developed for actively working people. To allow for an appropriate margin of improved mortality prospectively, the mortality rates incorporate a 70% factor applied to male rates and a 55% factor applied to female rates.

Healthy, post-retirement mortality assumptions reflect the RP-2014 Healthy Annuitant Mortality Table, adjusted as follows:

- Males: Mortality improvement projected to 2018 using the MP-2015 projection scale, a 73% factor applied to rates for ages less than 80, a 108% factor applied to rates for ages 80 and above and further adjustments for credibility.
- Females: Mortality improvement projected to 2020 using the MP-2015 projection scale, a 78% factor applied to rates for ages less than 80, a 109% factor applied to rates for ages 80 and above and further adjustments for credibility.

For disabled retirees, the mortality assumption was based on 90% of the RP-2014 Disabled Retiree Mortality Table.

TRI-COUNTY HEALTH DEPARTMENT

Notes To Basic Financial Statements (*Continued*)

The actuarial assumptions used in the December 31, 2016 valuations were based on the results of the 2016 experience analysis for the periods January 1, 2012 through December 31, 2015, as well as the October 28, 2016 actuarial assumptions workshop and were adopted by the PERA Board during the November 18, 2016 board meeting.

The long-term expected return on plan assets is reviewed as part of regular experience studies prepared every four or five years for PERA. Recently, this assumption has been reviewed more frequently. The most recent analyses were outlined in presentations to PERA's Board on October 28, 2016.

Several factors were considered in evaluating the long-term rate of return assumption for LGDTF, including long-term historical data, estimates inherent in current market data and a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected return, net of investment expense and inflation) were developed by the investment consultant for each major asset class. These ranges were combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and then adding expected inflation.

As of the most recent adoption of the long-term expected rate of return by the PERA Board, the target asset allocation and best estimates of geometric real rates of return for each major asset class are summarized in the following table:

Asset Class	Target Allocation	30-Year Expected Geometric Real Rate Of Return
U.S. equity - large cap	21.20%	4.30%
U.S. equity - small cap	7.42%	4.80%
Non-U.S. equity - developed	18.55%	5.20%
Non-U.S. equity - emerging	5.83%	5.40%
Core fixed income	19.32%	1.20%
High yield	1.38%	4.30%
Non-U.S. fixed income	1.84%	0.60%
Emerging market debt	0.46%	3.90%
Core real estate	8.50%	4.90%
Opportunity fund	6.00%	3.80%
Private equity	8.50%	6.60%
Cash	1.00%	0.20%
Total	100.00%	

TRI-COUNTY HEALTH DEPARTMENT

Notes To Basic Financial Statements (*Continued*)

In setting the long-term expected rate of return, projections employed to model future returns provide a range of expected long-term returns that, including expected inflation, ultimately support a long-term expected rate of return assumption of 7.25%.

Discount Rate

The discount rate used to measure the total pension liability was 7.25%. The projection of cash flows used to determine the discount rate applied the actuarial method and assumptions shown above. In addition, the following methods and assumptions were used in the projection of cash flows:

- Total covered payroll for the initial projection year consists of the covered payroll of the active membership present on the valuation date and the covered payroll of future plan members assumed to be hired during the year. In subsequent projection years, total covered payroll was assumed to increase annually at a rate of 3.50%.
- Employee contributions were assumed to be made at the current member contribution rate. Employee contributions for future plan members were used to reduce the estimated amount of total service costs for future plan members.
- Employer contributions were assumed to be made at rates equal to the fixed statutory rates specified in law and effective as of the measurement date, including current and estimated future AED and SAED, until the actuarial value funding ratio reaches 103%, at which point, the AED and SAED will each drop 0.50% every year until they are zero. Additionally, estimated employer contributions included reductions for the funding of AIR and the retiree health care benefits. For future plan members, employer contributions were further reduced by the estimated amount of total service costs for future plan members not financed by their member contributions.
- Employer contributions and the amount of total service costs for future plan members were based upon a process used by the plan to estimate future actuarially determined contributions assuming an analogous future plan member growth rate.

TRI-COUNTY HEALTH DEPARTMENT

Notes To Basic Financial Statements (*Continued*)

- The AIR balance was excluded from the initial fiduciary net position, as, per statute, AIR amounts cannot be used to pay benefits until transferred to either the retirement benefits reserve or the survivor benefits reserve, as appropriate. As the ad hoc post-retirement benefit increases financed by AIR are defined to have a present value at the long-term expected rate of return on plan investments equal to the amount transferred for their future payment, AIR transfers to the fiduciary net position and the subsequent AIR benefit payments have no impact on the Single Equivalent Interest Rate (SEIR) determination process when the timing of AIR cash flows is not a factor (i.e., the plan's fiduciary net position is not projected to be depleted). When AIR cash flow timing is a factor in the SEIR determination process (i.e., the plan's fiduciary net position is projected to be depleted), AIR transfers to the fiduciary net position and the subsequent AIR benefit payments were estimated and included in the projections.
- Benefit payments and contributions were assumed to be made at the end of the month.

Based on the above assumptions and methods, the LGDTF's fiduciary net position was projected to be available to make all projected future benefit payments of current members. Therefore, the long-term expected rate of return of 7.25% on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability. The discount rate determination does not use the municipal bond index rate, and therefore, the discount rate is 7.25%. There was no change in the discount rate from the prior measurement date.

Sensitivity Of The Department's Proportionate Share Of The Net Pension Liability To Changes In The Discount Rate

The following presents the proportionate share of the net pension liability calculated using the discount rate of 7.25%, as well as what the proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.25%) or 1-percentage-point higher (8.25%) than the current rate:

	1% Decrease (6.25%)	Current Discount Rate (7.25%)	1% Increase (8.25%)
Proportionate share of the net pension liability	\$ 56,427,726	\$ 35,429,512	\$ 17,924,483

Pension Plan Fiduciary Net Position

Detailed information about LGDTF's fiduciary net position is available in PERA's comprehensive annual financial report, which can be obtained at www.copera.org/investments/pera-financial-reports.

Changes Between The Measurement Date Of The Net Pension Liability And December 31, 2018

During the 2018 legislative session, the Colorado General Assembly passed significant pension reform through SB 18-200: *Concerning Modifications To the Public Employees' Retirement Association Hybrid Defined Benefit Plan Necessary to Eliminate with a High Probability the Unfunded Liability of the Plan Within the Next Thirty Years* (SB 18-200). The bill was signed into law by Governor Hickenlooper on June 4, 2018. SB 18-200 makes changes to the plans administered by PERA with the goal of eliminating the unfunded actuarial accrued liability of the Division Trust Funds and thereby reach a 100% funded ratio for each division within the next 30 years.

A brief description of some of the major changes to plan provisions required by SB 18-200 are listed below. A full copy of the bill can be found online at www.leg.colorado.gov.

- Increases employee contribution rates by a total of 2% (to be phased in over a period of three years starting on July 1, 2019)
- Modifies the retirement benefits, including temporarily suspending and reducing the annual increase for all current and future retirees, modifying the highest average salary for employees with less than five years of service credit on December 31, 2019 and raises the retirement age for new employees
- Member contributions, employer contributions and the annual increases will be adjusted based on certain statutory parameters beginning July 1, 2020 and then each year thereafter, to help keep PERA on path to full funding in 30 years.

TRI-COUNTY HEALTH DEPARTMENT

Notes To Basic Financial Statements (*Continued*)

- Expands eligibility to participate in the PERA DC Plan to new members hired on or after January 1, 2019, in the Local Government Division. Beginning January 1, 2021 and every year thereafter, employer contribution rates for LGDTF will be adjusted to include a defined contribution supplement based on the employer contribution amount paid to defined contribution plan participant accounts that would have otherwise gone to the defined benefit trusts to pay down the unfunded liability plus any defined benefit investment earnings thereon.

At December 31, 2018, the Department reported a liability of \$35,429,512 for its proportionate share of the net pension liability, which was measured using the plan provisions in effect as of the pension plan's year end based on a discount rate of 7.25%. For comparative purposes, the following schedule presents an estimate of what the Department's proportionate share of the net pension liability and associated discount rate would have been had the provisions of SB 18-200 applicable to LGDTF become law on December 31, 2017. This *pro forma* information was prepared using the fiduciary net position of LGDTF as of December 31, 2017. Future net pension liabilities reported could be materially different based on changes in investment markets, actuarial assumptions, plan experience and other factors.

Estimated Discount Rate Calculated Using Plan Provisions Required By SB 18-200 (<i>Pro Forma</i>)	Proportionate Share Of The Estimated Net Pension Liability Calculated Using Plan Provisions Required By SB 18-200 (<i>Pro Forma</i>)
7.25%	\$ 25,059,897

Defined Contribution Pension Plan

Plan Description

Employees of the Department who are also members of LGDTF may voluntarily contribute to the Voluntary Investment Program, an Internal Revenue Code Section 401(k) defined contribution plan administered by PERA. Title 24, Article 51, Part 14, of C.R.S., as amended, assigns the authority to establish the plan provisions to the PERA Board of Trustees. PERA issues a publically available comprehensive annual financial report for the program. The report can be obtained at www.copera.org/investments/pera-financial-reports.

TRI-COUNTY HEALTH DEPARTMENT

Notes To Basic Financial Statements (*Continued*)

Funding Policy

The Voluntary Investment Program is funded by voluntary member contributions up to the maximum limits set by the Internal Revenue Service, as established under Title 24, Article 51, Section 1402, of C.R.S., as amended. Employees are immediately vested in their contributions and investment earnings. For the year ended December 31, 2018, program members contributed \$778,514.

8. Defined Benefit OPEB Plan

Plan Description

Eligible employees of the Department are provided with OPEB through the HCTF, a cost-sharing multiple-employer defined benefit OPEB plan administered by PERA. The HCTF is established under Title 24, Article 51, Part 12 of C.R.S., as amended. Colorado State law provisions may be amended from time to time by the Colorado General Assembly. Title 24, Article 51, Part 12 of C.R.S., as amended, sets forth a framework that grants authority to the PERA Board to contract, self-insure and authorize disbursements necessary in order to carry out the purposes of the PERACare program, including the administration of the premium subsidies. Colorado State law provisions may be amended from time to time by the Colorado General Assembly. PERA issues a publicly available comprehensive annual financial report that can be obtained at www.copera.org/investments/pera-financial-reports.

Benefits Provided

The HCTF provides a health care premium subsidy to eligible participating PERA benefit recipients and retirees who choose to enroll in one of the PERA health care plans; however, the subsidy is not available if only enrolled in the dental and/or vision plan(s). The health care premium subsidy is based upon the benefit structure under which the member retires and the member's years of service credit. For members who retire having service credit with employers in the DPS Division and one or more of the other four Divisions (State, School, Local Government and Judicial), the premium subsidy is allocated between the HCTF and the Denver Public Schools Health Care Trust Fund (the DPS HCTF). The basis for the amount of the premium subsidy funded by each trust fund is the percentage of the member contribution account balance from each division as it relates to the total member contribution account balance from which the retirement benefit is paid.

TRI-COUNTY HEALTH DEPARTMENT

Notes To Basic Financial Statements (*Continued*)

C.R.S. § 24-51-1202, *et seq.* specifies the eligibility for enrollment in the health care plans offered by PERA and the amount of the premium subsidy. The law governing a benefit recipient's eligibility for the subsidy and the amount of the subsidy differs slightly depending under which benefit structure the benefits are calculated. All benefit recipients under the PERA benefit structure and all retirees under the DPS benefit structure are eligible for a premium subsidy, if enrolled in a health care plan under PERACare. Upon the death of a DPS benefit structure retiree, no further subsidy is paid.

Enrollment in PERACare is voluntary and is available to benefit recipients and their eligible dependents, certain surviving spouses and divorced spouses and guardians, among others. Eligible benefit recipients may enroll into the program upon retirement, upon the occurrence of certain life events or on an annual basis during an open enrollment period.

PERA Benefit Structure

The maximum service-based premium subsidy is \$230 per month for benefit recipients who are under 65 years of age and who are not entitled to Medicare; the maximum service-based subsidy is \$115 per month for benefit recipients who are 65 years of age or older or who are under 65 years of age and entitled to Medicare. The basis for the maximum service-based subsidy in each case is for benefit recipients with retirement benefits based on 20 or more years of service credit. There is a 5% reduction in the subsidy for each year less than 20. The benefit recipient pays the remaining portion of the premium to the extent the subsidy does not cover the entire amount.

For benefit recipients who have not participated in Social Security and who are not otherwise eligible for premium-free Medicare Part A for hospital-related services, C.R.S. § 24-51-1206(4) provides an additional subsidy. According to the statute, PERA cannot charge premiums to benefit recipients without Medicare Part A that are greater than premiums charged to benefit recipients with Part A for the same plan option, coverage level and service credit. Currently, for each individual PERACare enrollee, the total premium for Medicare coverage is determined assuming plan participants have both Medicare Part A and Part B and the difference in premium cost is paid by the HCTF or the DPS HCTF on behalf of benefit recipients not covered by Medicare Part A.

TRI-COUNTY HEALTH DEPARTMENT

Notes To Basic Financial Statements (*Continued*)

DPS Benefit Structure

The maximum service-based premium subsidy is \$230 per month for retirees who are under 65 years of age and who are not entitled to Medicare; the maximum service-based subsidy is \$115 per month for retirees who are 65 years of age or older or who are under 65 years of age and entitled to Medicare. The basis for the maximum subsidy in each case is for retirees with retirement benefits based on 20 or more years of service credit. There is a 5% reduction in the subsidy for each year less than 20. The retiree pays the remaining portion of the premium to the extent the subsidy does not cover the entire amount.

For retirees who have not participated in Social Security and who are not otherwise eligible for premium-free Medicare Part A for hospital-related services, the HCTF or the DPS HCTF pays an alternate service-based premium subsidy. Each individual retiree meeting these conditions receives the maximum \$230 per month subsidy reduced appropriately for service less than 20 years, as described above. Retirees who do not have Medicare Part A pay the difference between the total premium and the monthly subsidy.

Contributions

Pursuant to Title 24, Article 51, Section 208(1)(f) of C.R.S., as amended, certain contributions are apportioned to the HCTF. PERA-affiliated employers of the State, School, Local Government and Judicial Divisions are required to contribute at a rate of 1.02% of PERA-includable salary into the HCTF.

Employer contributions are recognized by the HCTF in the period in which the compensation becomes payable to the member and the Department is statutorily committed to pay the contributions. Employer contributions recognized by the HCTF from the Department were \$227,928 for the year ended December 31, 2018.

OPEB Liabilities, OPEB Expense, Deferred Outflows Of Resources And Deferred Inflows Of Resources Related To OPEB

At December 31, 2018, the Department reported a liability of \$3,213,355 for its proportionate share of the net OPEB liability. The net OPEB liability for the HCTF was measured as of December 31, 2017, and the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation as of December 31, 2016. Standard update procedures were used to roll forward the total OPEB liability to December 31, 2017. The Department's proportion of the net OPEB liability was based on the Department's contributions to the HCTF for the calendar year 2017 relative to the total contributions of participating employers to the HCTF.

TRI-COUNTY HEALTH DEPARTMENT

Notes To Basic Financial Statements (Continued)

At December 31, 2017, the Department's proportion was 0.2473% percent, which was an increase of 0.0110% from its proportion measured as of December 31, 2016.

For the year ended December 31, 2018, the Department recognized OPEB expense of \$273,767. At December 31, 2018, the Department reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	Deferred Outflows Of Resources	Deferred Inflows Of Resources
Differences between expected and actual experience	\$ 15,198	\$ —
Net difference between projected and actual earnings on pension plan investments	—	53,760
Changes in proportion and differences between contributions and proportionate share of contributions	116,433	—
Contributions subsequent to the measurement date	227,928	—
Total	\$ 359,559	\$ 53,760

\$227,928 reported as deferred outflows of resources related to OPEB, resulting from contributions subsequent to the measurement date, will be recognized as a reduction of the net OPEB liability in the year ended December 31, 2019. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

For The Year Ended December 31,	
2019	\$ (12,421)
2020	(12,421)
2021	(12,421)
2022	(12,421)
2023	(25,860)
Thereafter	(2,327)
Total	\$ (77,871)

TRI-COUNTY HEALTH DEPARTMENT

Notes To Basic Financial Statements (*Continued*)

Actuarial Assumptions

The total OPEB liability in the December 31, 2016 actuarial valuation was determined using the following actuarial cost method, actuarial assumptions and other inputs:

Actuarial cost method	Entry age
Price inflation	2.40%
Real wage growth	1.10%
Wage inflation	3.50%
Salary increases, including wage inflation	3.50% in aggregate
Long-term investment rate of return, net of OPEB plan investment expenses, including price inflation	7.25%
Discount rate	7.25%
Health care cost trend rates	
PERA benefit structure:	
Service-based premium subsidy	0.00%
PERACare Medicare plans	5.00%
Medicare Part A premiums	3.00% for 2017, gradually rising to 4.25% in 2023
DPS benefit structure:	
Service-based premium subsidy	0.00%
PERACare Medicare plans	N/A
Medicare Part A premiums	N/A

Calculations are based on the benefits provided under the terms of the substantive plan in effect at the time of each actuarial valuation and on the pattern of sharing of costs between employers of each fund to that point.

Health care cost trend rates reflect the change in per capita health costs over time due to factors such as medical inflation, utilization, plan design and technology improvements. For the PERA benefit structure, health care cost trend rates are needed to project the future costs associated with providing benefits to those PERACare enrollees not eligible for premium-free Medicare Part A.

Health care cost trend rates for the PERA benefit structure are based on published annual health care inflation surveys in conjunction with actual plan experience (if credible), building block models and heuristics developed by health plan actuaries and administrators and projected trends for the Federal Hospital Insurance Trust Fund (Medicare Part A premiums) provided by the Centers for Medicare & Medicaid Services. Effective December 31, 2016, the health care cost trend rates for Medicare Part A premiums were revised to reflect the current expectation of future increases in rates of inflation applicable to Medicare Part A premiums.

TRI-COUNTY HEALTH DEPARTMENT

Notes To Basic Financial Statements (*Continued*)

The PERA benefit structure health care cost trend rates that were used to measure the total OPEB liability are summarized in the table below:

<u>Year</u>	<u>PERACare Medicare Plans</u>	<u>Medicare Part A Premiums</u>
2017	5.00%	3.00%
2018	5.00%	3.25%
2019	5.00%	3.50%
2020	5.00%	3.75%
2021	5.00%	4.00%
2022	5.00%	4.00%
2023	5.00%	4.25%
Thereafter	5.00%	4.25%

Mortality assumptions for the determination of the total pension liability for each of the Division Trust Funds as shown below are applied, as applicable, in the determination of the total OPEB liability for the HCTF. Affiliated employers of the State, School, Local Government and Judicial Divisions participate in the HCTF.

Healthy mortality assumptions for active members were based on the RP-2014 White Collar Employee Mortality Table, a table specifically developed for actively working people. To allow for an appropriate margin of improved mortality prospectively, the mortality rates incorporate a 70% factor applied to male rates and a 55% factor applied to female rates.

Healthy, post-retirement mortality assumptions for the State and Local Government Divisions were based on the RP-2014 Healthy Annuitant Mortality Table, adjusted as follows:

- **Males:** Mortality improvement projected to 2018 using the MP-2015 projection scale, a 73% factor applied to rates for ages less than 80, a 108% factor applied to rates for ages 80 and above and further adjustments for credibility.
- **Females:** Mortality improvement projected to 2020 using the MP-2015 projection scale, a 78% factor applied to rates for ages less than 80, a 109% factor applied to rates for ages 80 and above and further adjustments for credibility.

TRI-COUNTY HEALTH DEPARTMENT

Notes To Basic Financial Statements (*Continued*)

Healthy, post-retirement mortality assumptions for the School and Judicial Divisions were based on the RP-2014 White Collar Healthy Annuitant Mortality Table, adjusted as follows:

- **Males:** Mortality improvement projected to 2018 using the MP-2015 projection scale, a 93% factor applied to rates for ages less than 80, a 113% factor applied to rates for ages 80 and above and further adjustments for credibility.
- **Females:** Mortality improvement projected to 2020 using the MP-2015 projection scale, a 68% factor applied to rates for ages less than 80, a 106% factor applied to rates for ages 80 and above and further adjustments for credibility.

For disabled retirees, the mortality assumption was based on 90% of the RP-2014 Disabled Retiree Mortality Table.

The following economic and demographic assumptions were specifically developed for, and used in, the measurement of the obligations for the HCTF:

- The assumed rates of PERACare participation were revised to reflect more closely actual experience.
- Initial per capita health care costs for those PERACare enrollees under the PERA benefit structure who are expected to attain age 65 and older ages and are not eligible for premium-free Medicare Part A benefits were updated to reflect the change in costs for the 2017 plan year.
- The percentages of PERACare enrollees who will attain age 65 and older ages and are assumed to not qualify for premium-free Medicare Part A coverage were revised to more closely reflect actual experience.
- The percentage of disabled PERACare enrollees who are assumed to not qualify for premium-free Medicare Part A coverage were revised to reflect more closely actual experience.
- Assumed election rates for the PERACare coverage options that would be available to future PERACare enrollees who will qualify for the “No Part A Subsidy” when they retire were revised to more closely reflect actual experience.

TRI-COUNTY HEALTH DEPARTMENT

Notes To Basic Financial Statements (*Continued*)

- Assumed election rates for the PERACare coverage options that will be available to those current PERACare enrollees who qualify for the “No Part A Subsidy” but have not reached age 65 were revised to more closely reflect actual experience.
- The health care cost trend rates for Medicare Part A premiums were revised to reflect the then-current expectation of future increases in rates of inflation applicable to Medicare Part A premiums.
- The rates of PERACare coverage election for spouses of eligible inactive members and future retirees were revised to more closely reflect actual experience.
- The assumed age differences between future retirees and their participating spouses were revised to reflect more closely actual experience.

The actuarial assumptions used in the December 31, 2016, valuations were based on the results of the 2016 experience analysis for the periods January 1, 2012 through December 31, 2015, as well as the October 28, 2016 actuarial assumptions workshop and were adopted by the PERA Board during the November 18, 2016 board meeting. In addition, certain actuarial assumptions pertaining to per capita health care costs and their related trends are analyzed and reviewed by PERA’s actuary, as needed.

The long-term expected return on plan assets is reviewed as part of regular experience studies prepared every four or five years for PERA. Recently, this assumption has been reviewed more frequently. The most recent analyses were outlined in presentations to PERA’s Board on October 28, 2016.

Several factors were considered in evaluating the long-term rate of return assumption for the HCTF, including long-term historical data, estimates inherent in current market data and a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected return, net of investment expense and inflation) were developed for each major asset class. These ranges were combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and then adding expected inflation.

TRI-COUNTY HEALTH DEPARTMENT

Notes To Basic Financial Statements (Continued)

As of the most recent adoption of the long-term expected rate of return by the PERA Board, the target asset allocation and best estimates of geometric real rates of return for each major asset class are summarized in the following table:

<u>Asset Class</u>	<u>Target Allocation</u>	<u>30-Year Expected Geometric Real Rate Of Return</u>
U.S. equity - large cap	21.20%	4.30%
U.S. equity - small cap	7.42%	4.80%
Non-U.S. equity - developed	18.55%	5.20%
Non-U.S. equity - emerging	5.83%	5.40%
Core fixed income	19.32%	1.20%
High yield	1.38%	4.30%
Non-U.S. fixed income	1.84%	0.60%
Emerging market debt	0.46%	3.90%
Core real estate	8.50%	4.90%
Opportunity fund	6.00%	3.80%
Private equity	8.50%	6.60%
Cash	1.00%	0.20%
Total	100.00%	

In setting the long-term expected rate of return, projections employed to model future returns provide a range of expected long-term returns that, including expected inflation, ultimately support a long-term expected rate of return assumption of 7.25%.

Sensitivity Of The Department's Proportionate Share Of The Net OPEB Liability To Changes In The Health Care Cost Trend Rates

The following presents the net OPEB liability using the current health care cost trend rates applicable to the PERA benefit structure, as well as if it were calculated using health care cost trend rates that are one percentage point lower or one percentage point higher than the current rates:

	<u>1% Decrease In Trend Rates</u>	<u>Current Trend Rates</u>	<u>1% Increase In Trend Rates</u>
PERACare Medicare trend rate	4.00%	5.00%	6.00%
Initial Medicare Part A trend rate	2.00%	3.00%	4.00%
Ultimate Medicare Part A trend rate	3.25%	4.25%	5.25%
Net OPEB liability	\$ 3,124,943	\$ 3,213,355	\$ 3,319,841

TRI-COUNTY HEALTH DEPARTMENT

Notes To Basic Financial Statements *(Continued)*

Discount Rate

The discount rate used to measure the total OPEB liability was 7.25%. The projection of cash flows used to determine the discount rate applied the actuarial cost method and assumptions shown above. In addition, the following methods and assumptions were used in the projection of cash flows:

- Updated health care cost trend rates for Medicare Part A premiums as of the December 31, 2017 measurement date
- Total covered payroll for the initial projection year consists of the covered payroll of the active membership present on the valuation date and the covered payroll of future plan members assumed to be hired during the year. In subsequent projection years, total covered payroll was assumed to increase annually at a rate of 3.50%.
- Employer contributions were assumed to be made at rates equal to the fixed statutory rates specified by law and effective as of the measurement date. For future plan members, employer contributions were reduced by the estimated amount of total service costs for future plan members.
- Employer contributions and the amount of total service costs for future plan members were based upon a process used by the plan to estimate future actuarially determined contributions assuming an analogous future plan member growth rate.
- Transfers of a portion of purchase service agreements intended to cover the costs associated with OPEB benefits were estimated and included in the projections.
- Benefit payments and contributions were assumed to be made at the end of the month.

Based on the above assumptions and methods, the projection test indicates the HCTF's fiduciary net position was projected to make all projected future benefit payments of current members. Therefore, the long-term expected rate of return of 7.25% on OPEB plan investments was applied to all periods of projected benefit payments to determine the total OPEB liability. The discount rate determination does not use the municipal bond index rate, and therefore, the discount rate is 7.25%.

TRI-COUNTY HEALTH DEPARTMENT

Notes To Basic Financial Statements *(Continued)*

Sensitivity Of The Proportionate Share Of The Net OPEB Liability To Changes In The Discount Rate

The following presents the proportionate share of the net OPEB liability calculated using the discount rate of 7.25%, as well as what the proportionate share of the net OPEB liability would be if it were calculated using a discount rate that is one percentage point lower (6.25%) or one percentage point higher (8.25%) than the current rate:

	1% Decrease (6.25%)	Current Discount Rate (7.25%)	1% Increase (8.25%)
Proportionate share of the net OPEB liability	\$ 3,612,821	\$ 3,213,355	\$ 2,872,400

OPEB Plan Fiduciary Net Position

Detailed information about the HCTF's fiduciary net position is available in PERA's comprehensive annual financial report which can be obtained at www.copera.org/investments/pera-financial-reports.

9. Deferred Compensation Plan

The Department has a deferred compensation plan created in accordance with the Internal Revenue Code Section 457. Participation in the plan is optional for all employees. The Department has not had new participants since the mid-1990s. The current participants (two) all started working for the Department prior to 1994. The plan is administered by Nationwide Retirement Solutions, formerly the Public Employees Benefit Services Corporation, and the Variable Annuity Life Insurance Company. The plan allows the employees to defer a portion of their salaries until future years. The deferred compensation is not available to employees until termination, retirement, death or unforeseen emergencies. Contribution limits are set by the Internal Revenue Service annually and are the same as those for the 401(k) plan.

TRI-COUNTY HEALTH DEPARTMENT

Notes To Basic Financial Statements (*Continued*)

10. Risk Management

The Department is exposed to various risks of losses related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees and natural disasters. The Department has obtained commercial insurance coverage for all risks of loss. Settled claims have not exceeded this commercial coverage in any of the past three fiscal years. Under the Colorado Governmental Immunity Act, the maximum liability per person, per occurrence, is \$350,000, with a maximum liability per occurrence of \$990,000. Claims expenditures and liabilities are reported when it is probable that a loss has occurred and the amount of that loss can be reasonably estimated. At December 31, 2018, the Department had no accrued liability under the terms of this self-insurance plan.

11. Contingencies

Grants

The Department receives grant monies from various federal and state agencies and private foundations. Such grants are subject to audit by the grantor, which could lead to requests for reimbursement to the grantor for expenditures not in compliance with the terms of the grant. Based upon the lack of reimbursement requests in prior grant audits, management of the Department believes such reimbursement requests, if any, will be immaterial.

12. Tax Spending And Debt Limitation (TABOR)

In November 1992, the voters of Colorado approved Amendment I, commonly known as the Taxpayer Bill of Rights (TABOR), which added a new Section 20 to Article X of the Colorado Constitution. TABOR contains tax, spending, revenue and debt limitations which apply to the State of Colorado and all local governments.

The Department does not believe itself to be subject to the requirement of TABOR, as the Department has been established by Adams, Arapahoe and Douglas Counties, and it receives no direct tax dollars and has no power to tax any of the residents within its jurisdiction. TABOR is applied to the counties which have formed the Department, and the Department receives general allocation funding from these counties. TABOR is complex and subject to interpretation. Many of the provisions, including the interpretation of what organizations may be subject to TABOR, may require judicial interpretation.

TRI-COUNTY HEALTH DEPARTMENT

Notes To Basic Financial Statements *(Continued)*

13. Concentrations

The Department received approximately 30% of its revenue from Adams, Arapahoe and Douglas Counties and 51% from state and federal grants for the year ended December 31, 2018.

14. Prior-Period Adjustment

In connection with its implementation of GASB 75, the Department restated its net position as of January 1, 2018. The restatement resulted in a decrease to net position totaling \$2,861,717 as of January 1, 2018. The effect on the Department's previously issued fiscal year 2017 statement of net position is summarized as follows:

	<u>Government-Wide Activities</u>
Net position at December 31, 2017, as previously reported	\$ (8,721,519)
Net OPEB liability	(3,066,467)
Deferred outflows of resources	<u>204,750</u>
Net Position As Of January 1, 2018, As Restated	<u><u>\$ (11,583,236)</u></u>

Single Audit Section

**Independent Auditors' Report On
Internal Control Over Financial Reporting
And On Compliance And Other Matters
Based On An Audit Of Financial Statements
Performed In Accordance With
Government Auditing Standards**

Board of Health
Tri-County Health Department
Greenwood Village, Colorado

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, the financial statements of the governmental activities and the major fund of Tri-County Health Department (the Department), as of and for the year ended December 31, 2018, and the related notes to the financial statements, which collectively comprise the Department's basic financial statements, and have issued our report thereon dated May 24, 2019.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Department's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Department's internal control. Accordingly, we do not express an opinion on the effectiveness of the Department's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit, we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance And Other Matters

As part of obtaining reasonable assurance about whether the Department's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose Of This Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

RubinBrown LLP

May 24, 2019

**Independent Auditors' Report On Compliance
For Each Major Federal Program And Report
On Internal Control Over Compliance
Required By The Uniform Guidance**

Board of Health
Tri-County Health Department
Greenwood Village, Colorado

Report On Compliance For Each Major Federal Program

We have audited Tri-County Health Department's (the Department) compliance with the types of compliance requirements described in the Office of Management and Budget's *OMB Compliance Supplement* that could have a direct and material effect on each of the Department's major federal programs for the year ended December 31, 2018. The Department's major federal programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with federal statutes, regulations and the terms and conditions of its federal awards applicable to its federal programs.

Auditors' Responsibility

Our responsibility is to express an opinion on compliance for each of the Department's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, and the audit requirements of Title 2 *U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (the Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the Department's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the Department's compliance.

Opinion On Each Major Federal Program

In our opinion, the Department complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended December 31, 2018.

Report On Internal Control Over Compliance

Management of the Department is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the Department's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the Department's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

TRI-COUNTY HEALTH DEPARTMENT

NOTES TO SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS

December 31, 2018

1. Basis Of Presentation

The accompanying schedule of expenditures of federal awards includes the federal grant activity of the Tri-County Health Department (the Department) for the year ended December 31, 2018 and is presented on the modified accrual basis of accounting. All federal awards received directly from federal agencies, as well as federal awards passed through other governmental agencies, are included on the schedule. The information in this schedule is presented in accordance with the requirements of the Uniform Guidance. Therefore, some amounts may differ from amounts presented in, or used in the preparation of, the basic financial statements.

2. In-Kind

Special Supplemental Nutrition Program for Women, Infants, and Children, CFDA No. 10.557, includes \$14,520,769 of food vouchers provided to individuals in the Department's service area, and Preventative Health Services, CFDA No. 93.977, included \$63,920 of noncash supplies to the Department, as reported by the Colorado Department of Public Health and Environment.

3. Indirect Costs

The Department has not elected to use the 10% *de minimis* indirect cost rate as allowed in the Uniform Guidance, Section 414.
